BESPOKE FURNITURE

Given our made-to-order nature, we have the ability to manufacture our units in any colour and size (with very few restraints). For example, if you have a 444mm gap you need to fill - we can build you a unit at that size! If this is something you're interested in - get in contact for a personalised quote.

A Quick Guide

DIFFERENT FURNITURE STYLES

We offer three different furniture styles - Fitted, Freestanding & Wall Hung. All of our units can be manufactured in each type - so here's a quick guide to show you the difference.

FITTED

Designed to maximise a variety of spaces. The use of a continuous worktop and plinth, blend your choice of furniture seamlessly together.

Our bespoke service allows you to have custom size units to fit your space perfectly without the need for filler panels. Available in every range.

FREESTANDING

All units within our collections can be adapted to create freestanding, modular furniture.

The use of stand-alone pieces can be used to achieve a luxurious, minimalist feel for your bathroom.

WALL HUNG

Perfectly practical.

Use wall hung units as a space saving solution in smaller suites or use to create eye-catching focal points in larger bathrooms.

* Unfortunately, WC units can not be Wall Hung as the toilet frame will be fitted to the floor.
